“Move Your Feet.....to Give Others Heat”

Together, we can help families, senior citizens, and others in our community who are literally “left out in the cold” due to heat-related emergencies.

Many of us have no idea what it’s like to be truly cold and have no means to keep the heat on. Come experience the cold to help your community, your neighbor, your friend or family member stay warm during the cold winter months. Funds raised allow us to help those who would otherwise fall through the cracks and be “left out in the cold.”
